DETAILED ACTION

Claim Objections

1. Claims 1 and 18 are objected to because of the following informalities:

Claim 1: A) Perhaps applicant should add –having two sides—after “a conductor layer” in line 5,

B) Perhaps applicant should replace “formed on one side of said conductor layer” in lines 7-8 with – having two sides, wherein said conductor layer is formed on one side of said base insulating layer--, in order to clearly describe the invention and maintain consistency throughout the claims.

Claim 18: A) Perhaps applicant should add –having two sides and—after “a conductor layer” in line 5,

B) Perhaps applicant should replace “formed on one side of said conductor layer” in lines 7-8 with – having two sides, wherein one side of said conductor layer is formed on one side of said base insulating layer--, in order to clearly describe the invention and maintain consistency throughout the claims, and since it is not clear from the claims whether the conductor layer is formed onto the base insulating layer or the base insulating layer is formed onto the conductor layer.

Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-5 and 18 are objected to as stated above.
